Md. Ferdous Jaman

Mirpur, Dhaka, Bangladesh
Phone: +8801612018416 Email: ferdousjamanmim@gmail.com
GitHub: github.com/ferdous-jaman
LinkedIn: linkedin.com/in/ferdousjaman

Profile

CSE graduate with professional experience in web development and strong foundations in software engineering and machine learning. Experienced in developing web and database-driven applications using **PHP, JavaScript, React Native, SQL, and modern web technologies**, with expertise in **Data Structures, Algorithms, DBMS, Software Testing, Deep Learning, and Explainable AI**. Published researcher with **6 peer-reviewed publications** in IEEE conferences and a Q1 Elsevier journal.

Education

Daffodil International University (DIU) — Dhaka, Bangladesh 2026
B.Sc. in Computer Science and Engineering
CGPA: **3.80/4.00** | Credits Completed: **148**
Dean's List Award — Top **0.5%** among all DIU departments (Fall 2023)
DIU Growing Star — Top **5%** among all students (Spring 2022)

Govt. Azizul Haque College — Bogura, Bangladesh
Higher Secondary Certificate (HSC), Science — **Golden A+ (GPA 5.00, Board Scholarship)** 2020

Bogra Zilla School — Bogura, Bangladesh
Secondary School Certificate (SSC), Science — **Golden A+ (GPA 5.00, Board Scholarship)** 2018

Skills

Programming: C, C++, Java, Python, JavaScript, PHP, SQL, OOP
Web Development: HTML, CSS, JavaScript, React, React Native, PHP, Laravel
Database & Backend: MySQL, SQLite, Supabase
Core CSE: Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks
Software Engineering: SDLC, Requirements Engineering, UML, Software Architecture & Design
SQA: STLC, Manual Testing, Test Case Design, Functional Testing, Bug Reporting
ML & Data: Machine Learning, Deep Learning, Data Science, Medical Image Analysis, Class Imbalance Handling, Explainable AI (Grad-CAM, LIME)
Tools: Git, GitHub, Figma, Android Studio, LaTeX
Soft Skills: Communication, Leadership, Teamwork, Problem-solving, Time Management, Adaptability

Professional Experience

Web Developer — **ElyXen**, Birulia, Savar, Dhaka May 2026 – Present

- Developed and maintained **10+ custom websites** using PHP, Laravel, WordPress, and modern web development practices.
- Built responsive, cross-device compatible, and SEO-friendly web solutions with focus on usability and performance.
- Worked on feature implementation, UI integration, deployment, customization, and technical maintenance.
- Collaborated with clients and team members to understand requirements and deliver web-based solutions.

Projects

Feriwala — Service Marketplace Platform HTML, CSS, JavaScript, MySQL

- Developed a web-based service marketplace connecting customers with service providers.
- Designed database structures and implemented core user, service, and transaction functionalities.
- Conducted usability testing with **50+ users** to identify issues and improve user experience.

BuildNest — Construction Expenditure Management System MS SQL, DBMS

- Developed a database-driven construction expenditure management system using MS SQL.
- Applied **3NF normalization** and relational database design principles to minimize redundancy.

Lifeline — Medical Ecosystem Application React Native, Supabase

- Developed an Android application supporting emergency assistance, medical services, doctor-related features, and reward points.
- Implemented Supabase for backend data management and application data handling.

Research & Publications

Journal Publication

- **Deep Learning-Based Binary Detection and Multiclass Subtyping of Non-Small Cell Lung Cancer with Model Interpretability**, *Informatics in Medicine Unlocked, Elsevier — Published (Scopus Q1; CiteScore: 10.5).* DOI: 10.1016/j.imu.2026.101789

Conference Publications — 5 papers published in IEEE Xplore

- **DeepLungBalance: Addressing Class Imbalance in Deep Learning-Based Lung Cancer Detection with Explainable AI and Prototype Deployment**, *IEEE QPAIN 2026.* DOI: 10.1109/QPAIN69676.2026.11546617
- **Deep Learning-Based Breast Cancer Classification: A Comprehensive Study on Mammogram Images**, *IEEE ICECTE 2026.* DOI: 10.1109/ICECTE69292.2026.11429259
- **A Robust Deep Learning Approach for Cardiovascular Disease Diagnosis Using ECG Image Analysis**, *IEEE BECITHCON 2025.* DOI: 10.1109/BECITHCON69222.2025.11504222
- **Hybrid Deep Learning with Uncertainty Quantification for Detection of Acute Lymphoblastic Leukemia**, *IEEE BECITHCON 2025.* DOI: 10.1109/BECITHCON69222.2025.11504220
- **DeepStrokeGuard: Explainable and Deployable Deep Learning for Brain Stroke Detection with Class Imbalance Handling**, *PECCII 2026.* DOI: 10.1109/PECCII70991.2026.11661895

Achievements

- Dean's List Award — Top **0.5%** among all DIU departments (Fall 2023)
- DIU Growing Star — Top **5%** among all students (Spring 2022)
- DIU Take-off Programming Contest — Top **5%** among all students (Fall 2022)
- DIU Unlock the Algorithm Contest — Top **10%** among all students (Fall 2023)
- Board Scholarship in PSC, JSC, SSC, and HSC
